

LIFE-CYCLE OF RESPIRATORY PATHOGENS

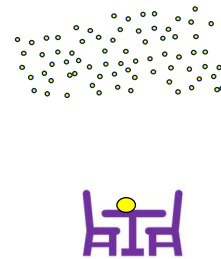

1 DISSEMINATION OF RESPIRATORY PATHOGENS PROTECTIVE MEASURES

- by ballistic droplets
- by airborne droplets
a set of airborne droplets is called an "aerosol"
- by direct contact
with mucosa surfaces (mouth, ...)

2 STORAGE OF RESPIRATORY PATHOGENS PROTECTIVE MEASURES

- in the air
in aerosol droplets
- in a fomite
on surfaces (table, ...)

3 ENTRY OF RESPIRATORY PATHOGENS PROTECTIVE MEASURES

- by mucosal contact
mouth, nose, eye
- by inhalation
